

# PORTFOLIO CHECK

What led to the current activity portfolio?

Is someone stewarding this overall portfolio? Is that needed?

Are there strategies and policies supporting each facet?  
What are they?

Opposed facets (anticipatory-enhancement) and  
(mission-adaptive) are supported very differently.  
How are these activities separated?

Is the balance of the portfolio supportive of the overall  
organisational remit or purpose?

Is the current balance indicative of a temporary or  
long-term trend?
