

## Results & Impact

What results and mission impacts have been observed from the innovation so far? What results and impacts are expected?

The financial services offered at the modules have been well-received by co-nationals going through the repatriation process. It is believed that the social and financial inclusion of returnees will have a significant impact on family well-being and Mexico's development. From its launch on March 1 to August 31, 2017, we have the following results:
