

Good dog is a social enterprise that offers dog owners a dog walking service by trained, trustworthy and professional dog-walkers, who not only provide the dog with an enjoyable and pampering walk, but also give it personal loving attention.

We have found that Good Dog's unique service is successful and effective for people with different kinds of disabilities (psych-social, cognitive and intellectual).

Our dog walkers receive intensive and comprehensive professional training for working with animals, animals first aid and a basic dog training course. They also receive training for soft and hard employment skills. Our dog-walkers can also work as freelancers while receiving all the relevant knowledge, tools and support to open their own dog-walking business.
