

**Parents in the program say:**

*"I don't know where we would have been today, if we hadn't received this help. We have finally become an ordinary family again."*

*"The fact that someone else took over - someone who knew something about what this situation is – that was a huge relief for us as parents."*

*"We still have challenges, but now we know how to address them."*

**Children in the program say:**

*"It shouldn't be called Back To School, but Back To Life."*

*"It was really good, that I had plan B because it helped me choose plan A."*

*"I realized that I can actually do math og that I actually have friends. This summer I'm graduating."*

**Management from the dept. of child and adolescent psychiatry in Odense say:**

*"As a departmental leader in Children's and Adolescent Psychiatry in Odense, it is a pleasure to experience how employees across the sectors become partners in developing new useful methods with such great results in relation to children and adolescents with psychiatric illnesses and massive school absenteeism."*

*"This very complex target group presents great challenges to our system, comes with high costs to both the young people's lives and society as a whole, if not taken care of in time. Coordination of both treatment and preventive measures is crucial and the collaboration between the Municipality of Odense and the Child and Adolescent Psychiatry in Odense, has proven this point exceptionally well."*

**School headmasters in the program say:**

*"It's worth its weight in gold to be able to draw on psychiatric expertise, when we as a school don't have the know-how as to what it takes to handle these kinds of situations."*

*"It has been incredibly rewarding for us as a school to take part in these brand new ways of collaborating."*

**Teachers in the program say:**

*"I had help realizing what I as a teacher could contribute with – and as it turns out it is actually a lot."*

*"It is a true success story."*
