

# BQ SUSTAINABLE DEVELOPMENT GOALS

## 5 GENDER EQUALITY

**BanQu** supports financial inclusion for female farmers as well as micro, small, and mid-sized enterprises in emerging markets by connecting them to global supply chains while building an immutable and accessible record of all transactions.

## 1 NO POVERTY

**BanQu** executes on this core mission by enabling people living in extreme poverty to “own, access, monetize, and permission” their data.

## 15 LIFE ON LAND

**BanQu's** unique traceability and transparency across people, organizations, and assets on a permissioned blockchain is being adopted by organizations globally to meet the KPIs of this critical SDG.

## 3 GOOD HEALTH AND WELL-BEING

**The BanQu** blockchain is built on the principal that every human deserves a health record that leads to timely care while protecting an individual's privacy.

## 4 QUALITY EDUCATION

**The BanQu** platform allows for documentation of educational attainment, enabling youth to work and build economic resilience for themselves and their communities through academic validation.

## 17 PARTNERSHIPS FOR THE GOALS

**BanQu** strives to be the solution required to facilitate collaboration in tackling interconnected SDGs. Our eco-system model has led to a roll out of the first ever blockchain powered network where disparate organizations can partner seamlessly to meet their unique or shared SDG goals.
